Esteemed FCC Chairman Michael Powell,

I am very concerned about the present review of rules concerning regulation of ownership of the media. It is imperative that the ownership of radio, television and printed media not be concentrated in the hands of a handful of gigantic corporations. I urge you to strengthen limitations on ownership so that diverse voices can be heard and we can have a viable democracy. It is obvious that whoever dominates the media dominates public opinion. I have studied hypnosis enough to realize that there has been a high level of manipulation of public opinion by the media and I am angered by the results of this manipulation. Please use your power to limit corporate domination of thought by limiting corporate domination of the media.

Thankyou,
Marla Streator
